ART SPECIFICATIONS

All separations are done by Gorilla for our presses. Please submit high resolution art in any of the following formats. Minimum DPI of 300. It is best to start at a high DPI (300 through 600) than at a low one (72 dpi - web standard). It is also best to start at the size of the design you want than increase it. For example, it is best to design your 10" print at 10" rather than 3" and then increase it.

Portable Document Format (*.pdf)
Adobe Illustrator (*.ai)
Encapsulated Post Script (*.eps)
Adobe Photoshop (*.psd)
Tagged Image Format (*.tif)

We accept CD, jump drives, and e-mail. For hand drawn art please contact us.

Do not give us your original file! Please make a copy for us. For TIF, PSD, and PDF files please submit flattened and at final print size. Please keep your original file in layers. All separations done in house by Gorilla.

For AI and EPS keep all layers.

Please provide pantone numbers (except white or black) or Gorilla will extract them from your file provided.

Please submit your art files sized to your intended print size.
